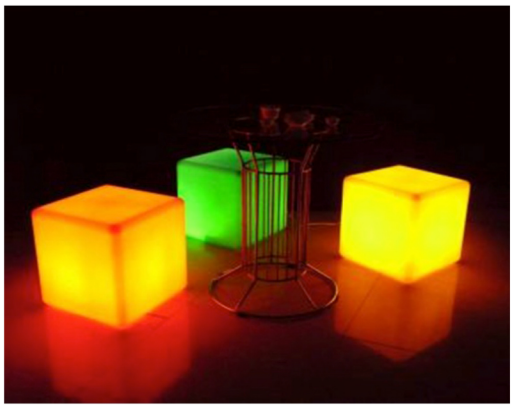
# Glow Cube



Add some bright funky fun to your entertaining or business with the Glow Illuminated Cubes. They are as versatile as the colours they project. Add them to any area inside and out as a seat or table and because they're cordless and lightweight they can move wherever you do.

This new Glow product operates with easy charging technology. Once changed they can be moved anywhere you need them such as out on the deck, by the pool or spa, on the lawn or in office reception to light it up in style. The choice is yours.

The Glow Cube is available in a cube size of 40cm and like all Glow products; they come with a remote control and change to many different colours.
